

## **New Storage Building and Concession Stand Under Construction at Sports Complex**

*Posted on July 16, 2025 by Carey Fauscett-Anderson*

TRENTON, Ga. (July 16, 2025) – Construction is officially underway on a new Storage Building and Concession Stand at the Dade County Sports Complex, marking the start of a project that will significantly improve the functionality and service capacity of the facility.

The new structure is designed to provide secure storage space for Dade County’s recreational leagues and upgraded food service accommodations to support athletic events and community gatherings. Once complete, it will improve the functionality of the Sports Complex by simplifying logistics for equipment management, concessions, and special events—benefiting both staff and facility users.

“This project reflects our continued focus on improving public spaces and delivering better recreational opportunities for our residents,” said County Executive Don Townsend. “We’re proud to support enhancements that serve the community and future generations.”

A short video capturing the early stages of construction is available on the County’s official Facebook and Instagram pages. The project is part of ongoing investments in public infrastructure throughout the county.

For more information on current or upcoming development projects, contact the Dade County Administrative Office.
