

Dade County Emergency Management Partners with ConfirmOk for Daily Safety Check-Ins

Posted on October 20, 2025 by Carey Fauscett-Anderson

TRENTON, Ga. (October 20, 2025) —Dade County Emergency Management has announced a new partnership with ConfirmOk, a service designed to provide daily safety check-ins and peace of mind for residents, caregivers, and community organizations.

ConfirmOk offers scheduled check-in calls that ensure safety and connection for individuals and families throughout Dade County. These daily calls are particularly beneficial for seniors, people living alone, or those who may need regular wellness checks. If a call goes unanswered, designated contacts or emergency responders can be promptly alerted.

How the Program Works

Registered citizens will receive an automated call from ConfirmOk using a local telephone number at the time they choose each day.

If they do not answer the first call, two additional automated calls will be placed at five-minute intervals.

If there is still no answer after the third attempt, the system will notify the Dade County 911 call center, which will follow up to ensure the individual's well-being.

“This partnership allows us to bring an extra layer of safety to our residents,” said Dade County Emergency Management officials. “Whether it’s for a senior living independently, a caregiver wanting peace of mind, or local responders looking to support vulnerable community members, ConfirmOk offers an easy and reliable solution.”

Through this program, Dade County residents can register themselves or a loved one for routine wellness calls at scheduled times. Caregivers can receive immediate notifications in the event of a missed check-in, ensuring that help is never far away.

Program Benefits and Cost Structure

This program strengthens Dade County's commitment to public safety by providing proactive wellness checks that can help identify emergencies before they escalate. ConfirmOk helps protect citizens who might otherwise go unnoticed in times of distress, offering both reassurance and rapid response capabilities.

Importantly, this partnership does not involve a yearly contract. Dade County is participating on a month-to-month basis and pays only per active user, ensuring fiscal responsibility while offering a valuable community service.

ConfirmOk also provides tools for organizations and law enforcement to better support at-risk individuals, reinforcing the County's dedication to the safety and care of its residents.

For more information about ConfirmOk services or how to participate, residents may contact Dade County Emergency Management at (706) 657-4111.

Editor's note: This article was updated on October 30, 2025, to clarify the cost structure. The program is \$250 per month for up to 35 users (effective \$7.14 per user). If participation exceeds 35 users, the per-user cost decreases under the next pricing tier.
